Prof. Dr. Zahid Askar Head of Department Orthopedic B Unit and Chairman of the Committee started the proceedings of Technical Evaluation, the exercise taken place so far as head wise items. The cases were to be decided as per approved check lists, wherein the indicator regarding acceptance by the end users was the determining factor and in case of failure on the said indicator, all such bids were not to be evaluated further which was loudly declared before the bidders on the day of opening of the technical bids, those who had not provided their quoted sutures along with their quotation were directed to provide the same as early as possible so that their offered bids (samples) may be evaluated.

Consequently upon arrival of the evaluation report from the end users, the IV Cannula B-Cat 2 of the Usman Co International and Ethicon Sutures from Muller and Phipps Pakistan Pvt Ltd were found to be responsive.

Decision:

The members of the committee unanimously accepted the decision of end users to ensure the best outcome of financial resources utilized and recommend the matter to the competent authority for further necessary action.

The committee was unanimous that KPPRA rules don't put a bar on finalizing the tender if it is a single quotation with condition of earlier wide publicity through press and official website which was done in this case.

This is with reference to the earlier decision in respect of surgical gauze and ACD bags where selection and approval of the said items was finalized despite the fact that the qualified bidder/s were not three.

The committee was informed that the Govt MCC KP which is a centralized rate contracting committee of the Govt following the same rule e.g. Inj. Streptokinase, Inj. Klaricid and many more items are finalized despite being single quoted.
